## Home

Polychem Replacement Parts is a well-established local company that specialises in the manufacturing and refurbishing of oil circuit breaker, isolator and tap changer spares for the South African high-voltage industry. Polychem Replacement Parts' objective is to deliver customer satisfaction by providing an efficient, personalised, quality service at a reasonable price. This is achieved by ensuring that we understand our customers' requirements fully, enabling us to provide a true value for money product and service which is delivered on time, every time. Our products are manufactured in-house and the raw materials are sourced locally, thus minimising delays on service delivery and maximising cost-effectiveness. **Watch our profile video:**
